

Message to Strategic Design Participants
September 2, 2016

Hello Everyone!

I wanted to take this opportunity to say THANK YOU to all of you who were able to participate in our Strategic Design Process in August. I think that we can agree that the three-day session helped us all to understand the importance of the collective work in educating learners. It forced us to think differently about education and our educational system. Finally, it allowed us to work collaboratively to develop a bold vision for the future!

In conversations with many of you who participated, the feedback has been very positive. More importantly, many of you now see a clearer connection between the vision of customized learning and our district reorganization efforts.

I am hoping that you would be willing to take a moment and share with us your “ah ha” moments and the connections that you made between Customized Learning, the Strategic Design Process, and our District Reorganization. What was it that you learned during the three-day session that helped you to “connect the dots”? What information did you hear/ learn that you think is important to communicate with those not in attendance? What was your primary “take-away” from the Strategic Design Process?

We would love to hear from you! Your feedback is very important to us. You have a valuable insight that could help our district communicate this exciting work!

Please feel free to email your comments/feedback to me at kcoffin@tps.k12.mi.us

Thank you again for your support for our learners. As we all know, we are so fortunate to have such a supportive learning community here in Tecumseh!

Kelly
